BID FOR SINGLE CHIP SEAL OVER ASPHALT – 2017

General Information for Bidders

Sealed bids must be received by 12:00 Noon, Monday, April 10, 2017 at the Wascott Town Hall as stated in the public notice and advertisement for bids. **All bids shall be placed in a sealed envelope and be clearly marked as “2017 Single Chip Seal Over Asphalt Bid”**. Bids may be mailed to: Jeannette Atkinson, Clerk/Treasurer, Town of Wascott, PO Box 159, Wascott, WI 54890.

Bids will be opened prior to the Regular Town Board Meeting on Tuesday, April 11, 2017 at 5:30 p.m. and approval on the award of the contract(s) will be considered at 7:00 p.m. Bids may be considered for acceptance for a period of 30 days after the bid opening.

The bid must comply with all material requirements of the bid invitation and specifications. The Town reserves the right to reject any bid determined by the Town to be nonresponsive. The Town reserves the right to reject any or all bids or portions of bids as determined to be in the best interest of the Town of Wascott. The Town maintains the right to determine the number of miles to be performed.

Depending on the costs of the proposed projects and budget limitations, the Town of Wascott may need to eliminate some roads from a final contract. *The Town reserves the right to withdraw roads or segments of a roadway prior to bid award.*

A written notice of award will be given to the successful bidder. The bidder(s) are required to execute the public contract and furnish required Certificates of Insurance within ten (10) calendar days from the date of the notice of award.

Insurance – Prior to beginning work, the contractor shall furnish and deliver to the Town Clerk, a Certificate of Insurance for Worker’s Compensation and an umbrella certificate of liability and property insurance in the minimum amount of \$3 million dollars, and shall notify the Town Clerk immediately of any cancellations or change in insurance coverage.

Traffic Control – The contractor will be responsible for all temporary traffic control, including furnishing and maintaining all signs, flags, flag-persons, barricades and lights where required, to protect the safety of the traveling public, all in accordance with the Manual on Uniform Traffic Control Devices (MUTCD) currently adopted by the Federal Highway Administration and the Wisconsin Department of Transportation supplement. All work will be done under traffic unless otherwise directed by the Town.

Payment Schedule – Payment shall be made within 30 days of receipt of a properly completed invoice or receipt and acceptance of the property or service, or in accordance with the payment schedule specified in the public contract. Claims for payment shall be filed with the Town Clerk.

Specifications
for
SINGLE CHIP SEAL OVER ASPHALT – 2017

Scope of Work to be Performed

1. A chip seal coat shall be in conformance with section 475, WisDOT Standard Specifications. This item shall consist of supplying and placement of a single application asphalt seal coat with cover aggregate to a previously completed pavement surface.
2. Immediately prior to applying the asphalt material, the existing surface shall be thoroughly cleaned of all loose material, dust, salt, vegetation and other objectionable material. Particular care shall be taken to thoroughly clean the outer pavement edges, ruts, dips and intersections,
3. Chip Seal Restrictions – Chip seal to be done not before May 15th or after September 15th. Pavement and air temperature shall be 60 degrees F or higher. Relative humidity shall be less than 75%. Chip seal shall not be placed during rain or fog or, if rain is expected, before set time.
4. Any patching or filling work to be completed by the Town of Wascott prior to the seal coating by the bidder in accordance with the Town of Wascott's specifications.
5. The asphalt material used for the chip seal coat shall be compatible with cover aggregate, applied in uniform and sufficient quantity to seal the pavement surface and provide bond to the cover aggregate. The contractor shall have instrumentation and controls to monitor and alter the asphalt application rate and temperature. Asphalt material shall be applied in a single pass up to 24'.

The asphalt material to be furnished and applied shall be CRS-2 emulsion or equivalent. The asphalt shall be heated as specified by the manufacturer. The application rate for the chip seal shall be approximately 0.40 gallons per square yard or at a rate to ensure 70% embedment of the aggregate chip into the asphalt after the asphalt has cured and the road is open to traffic.

6. The cover aggregate shall be a 5/16" 100% fractured aggregate. The application rate shall be approximately 25 pounds per square yard.
7. At the earliest practical time for the asphalt specified, the cover aggregate shall be applied uniformly over the asphalt material. The aggregate shall be immediately rolled with pneumatic tire rollers until thoroughly embedded in the asphalt material.
8. Traffic control shall be provided by the contractor to maintain safety, minimizing distress to the fresh asphalt seal coat and allow access to property during construction and curing. Contractor shall provide all flagging.
9. Basis of payment shall be lump sum per yard.
